301	<p>At the end of the solution to activity 2 it should say:</p> <p>So 35% of workers produced less than 1050 units which means that $1 - 35\% = 65\%$ produced at least 1,050 units.</p>
318	<p>Bottom of page Y is in dollars in this activity not pounds as stated</p>
337	<p>In the answer to Q4 of Chapter 9's test your learning questions, the correct answer is 110.</p> <p>A chain index is rebased to 100 each year, so the next index is $100 \times (1+10\%) = 110$.</p>
